Learning Place maintenance and system outages

Learning Place access issues with Chrome v80 and Microsoft Edge v80
 Students using un-managed devices (e.g. non-MOE, BYOx and personal) **will have issues** accessing some sections of Learning Place using the new update of Google Chrome (version 80) and Microsoft Edge (version 80). The department is working towards a resolution.

Chrome version 80 and Microsoft Edge version 80 users will not be able to access:

- Learning Place resources (e.g. search results) – Use Internet Explorer 11 or Safari on Mac.
- Some resource links within eLearn courses and edStudios – Install an alternative browser e.g. Firefox where departmental machines are not available.
